

# LINGUA

Women from everywhere, Feminists from everywhere, Feminist Associations or Groups from everywhere, given the fact that there are **ONLY** Women capable of leading all of Humanity to Peace, it is up to all of you to offer to the « passage2255 » Project the largest possible number of adaptations of the « HYMN TO PEACE ».

## ANGLAIS - ENGLISH

## Adaptation

Making an adaptation of the Hymn to Peace is not simply a matter of translating it. In conformity with the **genius** of any given language, it is instead a matter of proposing the same universal message using different words. Any adaptation has to be done on a voluntary basis.

It is essential to respect the rhythm of the « **11 notes** » which make up the theme. This implies that there should be only ONE SOUND PER NOTE. Each phrase comes in two separate parts. (see below). As a result, note # 6 and note # 7 **cannot** be linked together within a single word.

Please include these aspects :

A – Your adaptation of the « Hymn to Peace » in your language.

B – How it « sounds like » in English. This is the « **one sound per note** » rule.

C – In English, the basic meaning of the words.

D - We also need the translation of « **Hymn to Peace** » in your language and in the calligraphy of your choice

E - We also need the name of your language as written in your calligraphy.

F - We also need the name of the person, it has to be the name of an individual person (**or two**) not the anonymous name of a Group or Association. If, very preferably, a Feminist Group or Feminist Association is involved, its website address can be added just below the adaptation in small characters.

G - The optimal offer could take the form of a video showing members of your Feminist Association or Feminist Group singing your offered version with, in the audio background, the Trumpets of our website.
